SEA-AIR LOGISTICS (H.K.) LTD

Renewable and Cleantech

Solar Energy

Solar energy is one of the cleanest sources of energy with abundant supply.

Responding to environmental protection and addressing climate change, In 2021, Sea-Air has installed 2 sets solar power system in our Tsing Ying warehouse.

Sea-Air is a proactive and forward-looking company. Based on the character of sustainable energy, the use of solar energy in lieu of coal-fired generation with help to reduce carbon dioxide emission every year.

Location – Tsing Yi Warehouse

G Warehouse

(Proportion : 20,000sqft)

P Warehouse

(Proportion : 5,000sqft)

Solar Power System

Our solar power system is expected to generate 230,400 units of electricity annually.

	G Warehouse	P Warehouse
Proportion	20,000sqft	5,000sqft
No. of panels	902	290
Generating capacity(per Day)	500kw	140kw
Generating capacity(per Month)	15,000kw	4,200kw
Generating capacity(per Year)	180,000kw	50,400kw
Combine total generate 230,400kw per year		

**One small step
Contribute to make this world a better place.**

Thank you!
